

The Fifth Biennial Colloquium for Teachers of Instrumental Music Methods
Deer Creek Resort & Conference Center, Mt. Sterling, OH
May 18, 2013

A Model for Student-Centered Learning: Application and Transfer in the Instrumental Rehearsal

Richard S. Webb, Ph.D., The University of Massachusetts-Amherst
Ed Zunic, Upper Arlington (OH) City Schools

The *student-centered* classroom is a practical manifestation of modern theories of how learners construct knowledge. Specific to contemporary education, it is an instructional approach that is “characterised by innovative methods of teaching . . . and take[s] students seriously as active participants in their own learning, fostering transferable skills such as problem-solving, critical thinking and reflective thinking” (Välimaa, 2012). Research into this pedagogical approach is starting to emerge with more frequency in music education, suggesting benefits in the areas of student ownership of learning, interest in subject matter, motivation, and achievement. Contributions by Allsup (2003), Holsberg (2009), Scruggs (2008), and others have explored student-centered learning practices that foster the development of deeper musical understandings in the instrumental classroom. As the literature extols this approach in the performance ensemble, and indeed, other content areas, collegiate music teacher education programs need exemplars from practice upon which pre-service educators can observe and reflect.

Richard S. Webb (B.M., Music Performance, Bowling Green State University; M.M., Viola, University of Cincinnati; Ph.D., Music Education, Northwestern University) is on the faculty of the University of Massachusetts-Amherst, teaching courses in instrumental music education, technology in education, and graduate research. Prior to teaching experiences at UMass, Northwestern, and DePaul University in Chicago, he was a music educator in the state of Ohio for 13 years. He recently completed his doctoral dissertation, "Construction of Musical Understandings: An Exploration of Peer Tutoring in the School Orchestra Program," while serving as a contributor to the Northwestern University Center for the Study of Education and the Musical Experience. His research interests include peer teaching and learning in music, and creative thinking in the performance ensemble. Dr. Webb's most recent research-based article for practitioners, "Learning by Teaching/Addressing a Need: Peer Tutoring in Your Orchestra Program," was published in the August, 2012 issue of the *American String Teacher*.

Ed Zunic (B.M., M.M., Music Education, Bowling Green State University) is a string teacher for the Upper Arlington City Schools (grades 4-12), director of the Springfield Youth Symphony, and the cellist in the Columbus String Quartet. He has served as the OSTA Middle School Camp Director, OMEA Creative Events Chair, OMEA Orchestra Affairs Chair, and Upper Arlington High School music department chair. His past employment includes: Ector County Schools (TX), Lima City Schools (OH), and Newark City Schools (OH). His awards include: "One of Five People to Watch" by the Upper Arlington News, OSTA "Public School Teacher of the Year"; and the BGSU "Distinguished Graduate Award." His compositions and arrangements can be purchased from the Lorenz Corporation and Alfred-Highland/Eting Publishing. Mr. Zunic is a frequent guest conductor and orchestra clinician.
